ABOUT MBS COLLEGE

The Prince Mohammed Bin Salman College of Business and Entrepreneurship (MBSC) is a new, private, higher education institution for both men and women. It has been established through an International partnership between **Emaar The Economic City, Babson Global, Lockheed Martin** and **Misk** under the umbrella of the Economic Offset Program in the Kingdom of Saudi Arabia. **MBSC** adopts Babson College's unique approach to entrepreneurial education which does not rely on passively listening to classroom lectures but focuses on hands-on experiential learning that is practical and pragmatic. Development of individuals will continue outside class through an intentionally created set of co-curricular experiences that will reinforce and build the entrepreneurial leadership skills of students.

MBSC provides a world-class education that meets international standards from right here in Saudi Arabia.

MBSC has conducted a global search to hire faculty who are both talented teachers and prominent researchers. Many of our faculty have been trained at **Babson College**. The faculty are also supplemented by a group of distinguished visiting faculty from world-class colleges and universities. **MBSC** is committed to abide by global standards of quality by following standards of both local (**NCAAA**) and global accreditation from bodies such as **NECHE** and **AACSB**. **Babson Global** will continue for many years to provide assistance and support to **MBSC** on its journey to excellence.

MESSAGE FROM THE DEAN

Prince Mohammed Bin Salman College of Business and Entrepreneurship is established to contribute to the realization of Vision 2030. In the image of world-class global business schools, we aim to be the region's leading School of Business and Entrepreneurship, an elite institution of higher learning. Our **Executive MBA, Master in Management, and Master in Finance** candidates learn how to conceptualize value-creating initiatives and execute the effective realization of these. Being a small scale, high quality School, our program candidates are carefully selected, hand-picked through a rigorous admissions process.

Likewise, our Faculty are unique in that they all have doctorates from the world's foremost business schools. They publish their research in the top academic journals and their research-informed experiential teaching prepares our students to be immediately job-ready.

We may regret it, but the time is long gone when new junior recruits had ample time in organizations to learn and mature before making contributions. In the current globally competitive business environment, new junior recruits must be effective from day one and make contributions to advance their organizations right away.

We invite you to have a close look at these exceptionally fine young Saudi leaders, women, and men.

MBS College provides wonderful development opportunities to anyone in our community. In turn, our community provides high-impact development opportunities to individuals and organization and, by consequence, Saudi Arabian society.

Thank you.

Zeger Degraeve
Dean, MBS College

MESSAGE FROM HEAD OF STUDENTS' CAREER OFFICE

We are honored to see the caliber of graduates that complete our programs and go out into the world to, simply put, get things done. Our graduates are inventors, entrepreneurs, healthcare leaders, energy technologists, strategy consultants and advisors to some of the highest authorities at the national level. They are all having measurable impact on the growth and rapid transformation taking place in the Kingdom today.

The healthcare sector is a popular choice of our **EMBA** graduates, with 24% graduates working within the wellness and healthcare sector across both public and private institutions. All of them are contributing meaningfully to the unprecedented transformation of this critical sector. An additional 14% of our graduates work directly in government contributing more broadly to the overall development of the Kingdom and directly contributing to the realization of Vision 2030.

A further 15% of our MiM graduates also work in government and the public sector, across various ministries and other governmental entities. They are directly contributing to the realization of key national projects. An additional 13% of our graduates are working in the critical Energy sector, where they are innovating at the crossroads of management and technology with enhanced business acumen.

Equally interesting is the fact that 45% of our graduates have received new job offers or promotions within the 6-month period following their graduation from **MBSC**.

It is now time for our graduates to venture onwards & leave their impact on individuals, organizations, and society. And that is the most exciting part for us here at the **Prince Mohammed Bin Salman College Careers Office**.

Unlock Your Potential

A WORD FROM OUR ALUMNI

Ahmed Sufyani

MBA Part-time 2017

Title: Executive Director
Organization: Ministry of Investment
LinkedIn: [Click Here](#)

The invaluable experience at MBSC gave me an excellent opportunity to transition from a technical background into the business world. The intensive courses of the program create leaders with sharper business acumen, diverse skills, and wider knowledge.

Nawfal Abdullah Aljerian

MBA Part-time 2017

Title: CEO
Organization: Medical Referrals Center a
Ministry of Health
LinkedIn: [Click Here](#)

After years of experience as an Emergency Medicine Physician in the healthcare industry, it was about time to enhance and further develop the leadership skills needed to navigate through the complexity of healthcare system, especially with the huge transformation the Kingdom is going through. The extraordinary program at MBSC and the faculty helped me connect the dots and develop a framework that can be used on a daily basis to lead and make critical decisions during times of uncertainty that plays an important role not just at organizational level but at a national level as well.

Basim Oudah Albeladi

Entrepreneur
MBA Part-time 2018

Title: Founder & CEO
Organization: Labayh
LinkedIn: [Click Here](#)

I needed a program to enhance my existing business background with a deep dive into topics that would be relevant for my objectives. MBSC's world-class professors and entrepreneurial curriculum was a starting point that set me off on a journey towards building my leadership skills and a solid network. Right now, I'm able to grow my own business, pitch ideas more effectively, develop a solid business model, and set myself up on the path of success.

Almohanad Ali Almarwai

Entrepreneur
MBA Full-time 2017

Title: Co-Founder & CEO
Organization: Arabian Coffee Institute, Coffee
Lights, Ash Café, & AgriNexus Ltd
LinkedIn: [Click Here](#)

Through the SLE component of the EMBA program, the social capital, and networking opportunities, MBSC has contributed greatly to growing my existing company and played an important role in successfully launching and managing another.

Sariah Yahya Aljefri

MBA Full-time 2018

Title: Founder
Company: Brainfreeze and Firnas Aero
Title: Senior Venture Advisor
Organization: FoundersLane
LinkedIn: [Click Here](#)

I define myself as an employed entrepreneur, prior to joining MBSC I had a struggle with jumping up the ladder of my career while at the same time maintaining the success of my businesses. Post my MBA I have cultivated an entrepreneurial mindset that helped me in navigating the corporate environment while having a successful startup running autonomously. I have evolved in my career by joining a leading entity & one of the main pillars for vision 2030 leveraging the knowledge I acquired in the fields of economics, strategy, & management during my MBA making a profound impact on my nation towards a brighter future.

Abdulrahman Mohammad Al Saati

Entrepreneur
MBA Full-time 2017

Title: Founder & CEO
Organization: Destifind
LinkedIn: [Click Here](#)

My time at MBSC helped develop my business skills and grow my network, which enabled me to grow and scale my tourism business effectively even through the COVID-19 pandemic. It also equipped me with the tools to manage and work with stakeholders from the public sector to amend regulations and policies for investing in the tourism sector.
